

Indoor recycling bin h86_267

Anti-UV powder-coated steel container with push/pull opening and adjustable feet. Ideal for paper collection. Dimensions: W 38 x D 38.4 x H 76 cm.

The **h86_267 recycling bin**, designed for **paper collection**, is the ideal solution for managing waste in indoor environments such as offices, schools, shopping centers, and public spaces. Made of **anti-UV powder-coated steel**, it ensures resistance to external agents, durability, and a modern aesthetic appearance.

Thanks to the **push/pull opening system** with mechanical closure, it is easy and practical to use, maintaining high hygiene levels. The **integrated bag support on guides** allows for quick bag changes (bags not included), while the **adjustable feet** ensure stability even on uneven floors.

This container is equipped with **clear signage on the door and a calibrated opening**, making it intuitive for paper collection. Furthermore, it can be fixed to the floor via **4 anchoring points**, ensuring greater safety and stability in high-traffic areas.

The modern design and the matte nature green color fit perfectly in any indoor environment, promoting orderly and sustainable waste management.

Simplify paper collection with the **h86_267 container**, resistant, practical, and elegantly designed. An essential element for efficient and sustainable waste management!

Technical features:
