## Indoor recycling bin h86\_274

60L powder-coated steel container, with Green RAL 6018 lid for waste separation, easy emptying system and non-slip base. Dimensions: approx. W 30 x D 30 x H 89.7 cm.

The **h86\_274 recycling bin** is a 60-liter container designed for indoor environments, ideal for offices, canteens, schools and public spaces. Made of **anti-UV powder-coated steel**, it combines robustness and resistance to corrosion with a functional and elegant design.

The **Green RAL 6018 signage lid**, specially designed with **calibrated openings**, facilitates correct waste disposal. The emptying system is simple and fast thanks to the **removal of the lid**, which allows for easy bag changes (bags not included).

The **base with rubber gasket** ensures stability and protects the floor from any scratches or damage, making it a safe and reliable solution. It is also supplied with a **dedicated sticker** to be applied to the lid to clearly identify the type of waste to be collected.

Choose the **h86\_274 recycling bin** to organize your indoor spaces in a practical and elegant way, improving waste management.

### Technical characteristics:
