

Indoor recycling container 2 x 40 lt h1025_26

Wall-mounted indoor recycling bin in steel with 2 compartments. Capacity: 2 x 40 lt. Dimensions: L 51 x P 28 x H 56 cm.

The **indoor recycling container H1025_26** is a **wall-mounted station with two separate compartments**, perfect for the **orderly and functional management of waste in indoor environments** such as offices, schools, canteens, hospitals, common areas and high-traffic public spaces.

The structure is composed of a **painted steel frame and cover**, resistant to daily use and easy to sanitize. The container is divided into **two compartments of 20 liters each** (total 40 lt), which house **internal plastic containers with handles**, easy to remove and empty. The **emptying takes place from the top**, simplifying maintenance operations and ensuring hygiene.

The container is designed for **wall mounting** thanks to a **painted steel bracket** included in the supply, which allows for a solid and space-saving installation. It is available in **different colors**, to visually adapt to different environments and support the visual recognition of waste.

Ideal as an **indoor recycling point** where space optimization is fundamental.

Choose the **wall station H1025_26** now for efficient and orderly recycling in your indoor environments. Contact us for personalized requests or bulk supplies.

Technical features:

- **Structure material:** Painted steel
- **Total capacity:** 40 liters (2 x 20 lt)
- **Internal containers:** in plastic with handles
- **Pictograms:** included
- **Emptying:** from the top
- **Fixing:** wall-mounted, with steel bracket included
- **Dimensions:** L 51 x P 28 x H 56 cm
- **Weight:** 12 kg
- **Available colors:** various colors
- **Use:** indoor environments

User benefits:

- **Optimization:** of space thanks to wall mounting.

- **Recycling:** simplified with two separate compartments.
- **Ease:** of emptying via top opening and handles.
- **Design:** compact and robust, suitable for high-traffic places.
- **Colors:** customizable for more effective visual management.

FAQ:

1. **Is the container suitable for outdoor use?**
No, it is designed exclusively for indoor use.
2. **Is it difficult to mount on the wall?**
No, it is supplied with a painted steel bracket for simple and secure fixing.
3. **Are the internal containers removable?**
Yes, they are in plastic with handles, easy to extract for emptying.
4. **Can I choose the color of the bin?**
Yes, it is available in different colors.
5. **How much does the complete container weigh?**
The container has a weight of 12 kg, which ensures stability even once mounted.

Mini purchase guide:

In indoor areas where space is limited, choosing a **wall-mounted recycling station** allows you to **optimize waste organization** without obstructing pathways.

The H1025_26 model offers **functionality, robustness and practicality**, combining a professional steel structure with **easily manageable internal containers**.

Perfect for contexts requiring **hygiene, order and durability**, it represents an ideal space-saving solution for companies, schools and public environments.

Wall-mounted recycling container, 2-compartment wall bin, painted steel container with top emptying, indoor wall waste container, indoor recycling 2x20 lt, container with fixing bracket, space-saving recycling bin.
