

Indoor recycling container 3 x 60 lt h1025_27

Wall-mounted steel indoor recycling bin with 3 compartments. Capacity: 3 x 60 lt. Dimensions: W 76 x D 28 x H 56 cm.

The **indoor recycling container H1025_27** is a **professional three-compartment wall-mounted station**, designed to optimize **waste management in high-traffic indoor environments** such as **offices, canteens, schools, hospitals, common areas and public premises**.

The frame is made entirely of **painted steel**, resistant, solid and easy to sanitize. The main body is divided into **3 compartments of 20 liters each** (for a total of 60 lt), each of which houses an **inner plastic container with handles**, designed to simplify emptying operations.

The **top-emptying system** makes maintenance quick, safe and hygienic. Wall mounting is done via an **included painted steel bracket**, which guarantees a stable and space-saving installation.

Thanks to its **compact shape** and the possibility of choosing from **different colors**, this container integrates easily into any professional environment, encouraging correct waste disposal thanks to the **visual separation of the three compartments**.

Optimize waste management in your indoor environments with the **H1025_27 container!** Contact us for supply requests or color customization.
