

## Indoor recycling station 120 lt h953\_07

Recycling station with 3 holes for 3 different types of waste, with a hinged lid and 3 internal containers of 40 lt each. Dimensions: 95 x 32 x h 75 cm. Total capacity: 120 lt.

The **indoor recycling station 120 lt h953\_07** is an ideal solution for managing waste separation in indoor environments. The **rectangular design with clean lines** allows it to integrate perfectly into any context, offering an efficient and orderly system for waste collection.

Made of **1.5 mm sheet iron**, this bin guarantees **strength and durability over time**. The **body is joined by welding**, ensuring structural solidity. The **hinged lid**, fixed with two invisible screws, facilitates waste disposal and keeps the container closed to prevent odors from escaping.

The station is equipped with **3 internal plastic buckets of 40 lt each**, which allow for simple and immediate waste separation. Each bucket can be easily extracted for emptying. The **base with scratch-resistant rubber feet** protects the surfaces on which it is placed. The materials are easily separable for correct recycling at the end of the product's useful life.

Thanks to the **fire resistance certified according to the UNE-EN 13501-1 regulation**, this container offers additional safety in enclosed spaces. It is available in **different colors (see attached image)** to meet specific aesthetic needs and is supplied with **1 pictogram for each hole**, to be specified during the ordering phase by choosing from those available in the attached image. The pictograms consist exclusively of the waste icon, without text.

Optimize waste management in your spaces with the **h953\_07 recycling station!** **Order now** for a cleaner, more organized, and sustainable environment.

### Technical features:

- **Dimensions:** 95 x 32 x h 75 cm
- **Total capacity:** 120 lt (3 buckets of 40 lt)
- **3 internal plastic buckets of 40 lt each included**
- **Single bucket dimensions:** 28.5 x 21.5 x h. 69.4 cm
- **Structure material:** 1.5 mm sheet iron
- **Internal buckets material:** plastic
- **Weight:** 28 kg
- **Base:** with scratch-resistant rubber feet
- **Lid:** hinged with invisible screws
- **Fire resistance:** UNE-EN 13501-1
- **Available colors:** different colors (see color chart)
- **Pictograms included:** 1 for each hole - see attached image (specify the chosen pictogram when ordering)

### User benefits:

- **Compact design:** fits perfectly into any internal space.
- **Ease of disposal:** 3 removable internal buckets for simple waste separation.

- **Surface protection:** base with scratch-resistant rubber feet to prevent damage.
- **Resistant materials:** solid and durable sheet iron structure.
- **Certified safety:** fire resistance compliant with the UNE-EN 13501-1 regulation.

## FAQ:

1. **How many internal buckets are included in the supply?**  
3 internal plastic buckets of 40 lt each are included.
2. **Is it suitable for offices and public spaces?**  
Yes, thanks to the robust and compact design, it is perfect for offices, schools, and indoor public environments.
3. **How are the internal buckets emptied?**  
The buckets can be easily extracted from the top by lifting the lid of the recycling station, for quick and practical emptying.
4. **What are the total dimensions of the container?**  
The total dimensions are 95 x 32 x h 75 cm.
5. **Is the structure fire-resistant?**  
Yes, it is certified according to the UNE-EN 13501-1 regulation for fire resistance.

## Short buying guide:

When choosing an **indoor recycling station**, it is fundamental to consider the **collection capacity**, the **design**, and the **ease of emptying**. The h953\_07 model, with a total capacity of 120 lt divided into 3 compartments of 40 lt each, is ideal for offices, schools, and public environments. The **1.5 mm sheet iron structure** guarantees strength and durability, while the removable internal buckets simplify disposal operations.

The **compact and rectangular design** allows it to be positioned easily even in tight spaces. Thanks to the UNE-EN 13501-1 certified **fire resistance**, it offers an additional level of safety. Customizable with **different colors** and pictograms to indicate the types of waste, it is the perfect solution for organized and efficient waste separation.

*Indoor recycling station, waste separation container, 3-compartment bin, office bin, bin with internal buckets, office waste separation, sheet iron container, UNE-EN 13501-1 fire resistance, customizable recycling station, indoor waste management, bin with scratch-resistant rubber feet, multi-compartment container.*

*\*Images are purely indicative.*

*\*When ordering, please communicate the chosen pictograms (1 for each hole). The pictograms consist exclusively of the waste icon, without text.*

*\*Upon request for a quote, it is possible to customize the container by choosing a different RAL color.*
