#### FAQ:

1. **Is the container suitable for outdoor environments?**  
No, it is designed exclusively for indoor use.
2. **Is the pictogram included in the price?**  
Yes, 1 pictogram is provided included (unsorted waste symbol).
3. **Is the internal bag easily removable?**  
Yes, thanks to the internal bag holder, replacement is simple and fast.
4. **Are other colors available?**  
Yes, the container is available in different colors upon request.
5. **Is it a stable product even in crowded places?**  
Yes, with a weight of 9.5 kg, it is stable and safe even in high-traffic areas.

#### Mini purchase guide:

For high-traffic indoor environments, choose containers with **high capacity**, like this **100-liter** model. The **entirely steel** material ensures hygiene, ease of cleaning and long-term durability.

The **internal bag holder** with **top emptying** simplifies daily operations and keeps the environment tidy.

An **identifying pictogram** helps users to correctly sort waste.

If you need to manage different collection streams, prefer containers available in **multiple colors**, so as to easily adapt them to your sorting system.
