

## Indoor waste collection container 2 x 60 L h1025\_17

Steel container with double hole and 2 internal bag holders. Dimensions: W 30.2 x D 30.2 x H 82.5 cm.

The **H1025\_17 indoor waste collection container** is a compact and elegant solution, ideal for **waste separation in indoor environments**, such as **offices, canteens, schools, corporate spaces, and public environments**.

Entirely **made of painted steel**, it is equipped with a **lid with a double hole** that allows the simultaneous collection of **two waste fractions** in a single structure. The interior is set up with **2 independent bag holders**, each with a **60-liter capacity**, and with **top emptying**, to simplify maintenance operations and ensure hygiene and practicality. The product is equipped with a kit of 5 magnetic pictograms.

With a **weight of only 6.5 kg**, the container is **easily movable** but at the same time **stable**, thanks to the compact structure and robust material. The availability in **different colors** allows the container to be matched with color codes for waste separation (paper, plastic, non-recyclable, organic, etc.), facilitating identification and correct use by users.

Choose the **H1025\_17 double container** to better organize waste separation in your environment. Contact us now for customized corporate supplies!

### Technical features:

- **Type:** Indoor waste collection container
- **Material:** Painted steel
- **Total capacity:** 60 liters
- **Internal structure:** Double bag holder
- **Lid:** With double hole
- **Emptying system:** From the top
- **Dimensions:** W 30.2 x D 30.2 x H 82.5 cm
- **Weight:** 6.5 kg
- **Pictograms:** kit of 5 magnetic pictograms
- **Colors:** available in different colors
- **Usage:** Indoor – offices, schools, canteens, public environments

### User benefits:

- **Waste separation:** in a single point with a double internal compartment.
- **Steel material:** durable, resistant, and easy to clean.

- **Top emptying:** practical and hygienic.
- **Available:** in multiple colors for optimal visual waste management.
- **Ideal:** for environments with limited space but high footfall.

#### FAQ:

1. **Does the container have two separate compartments?**  
Yes, it is equipped with a double internal bag holder for waste separation.
2. **Is the lid divided by waste types?**  
Yes, it has a double hole, ideal for visual and functional separation.
3. **Is it possible to have custom colors?**  
Yes, the product is available in different colors to distinguish the various fractions.
4. **Is the container suitable for outdoor use?**  
No, it is designed for indoor use. For outdoors, a model with specific protections is recommended.
5. **How is the full bag removed?**  
Through top emptying, by removing the lid to easily access the bags.

#### Mini buying guide:

If you manage indoor environments with high footfall, a **container with a double compartment** allows you to **optimize space** and improve **waste separation management**.

The **double-hole lid** guides the user in the correct selection of waste, while the **separate internal bag holder** simplifies the removal and replacement of bags.

Choose **painted steel** containers for strength, hygiene, and long life.

The option of **different colors** allows for uniform waste management in large shared environments.
