FAQ:

1. Is it suitable for waste sorting?

Yes, it is set up for general waste but can be used for other streams by changing the pictogram.

2. Can I install it in narrow corners?

Yes, the triangular shape makes it ideal for corners or small spaces.

3. Is the container stable?

Yes, the weight of 7.2 kg and the steel structure guarantee its stability.

4. Can the pictogram be changed?

The container is compatible with interchangeable magnetic pictograms, which can be purchased separately.

5. Is it suitable for outdoor environments?

No, it is designed exclusively for indoor use.

Mini buying guide:

When choosing indoor waste containers, the **shape** can make the difference. **Triangular models** like H1025_19 are ideal for those who have **limited space** or want to exploit **unused corners**.

The **painted steel structure** guarantees **durability**, while the **magnetic pictogram** facilitates correct disposal.

The **top emptying** system is designed to improve daily cleaning and maintenance operations.
