

## Indoor waste container 100 lt h1025\_18

100-liter steel container with double opening, bag holder and 5 pictograms included. Dimensions: W 38.3 x D 38.3 x H 82.5 cm.

The **H1025\_18 waste collection container** is the ideal solution for indoor environments that require **effective and orderly waste sorting**, such as **offices, company canteens, schools, waiting rooms, and public facilities**.

Built **entirely in painted steel**, it is equipped with a **lid with a double opening**, which allows the separate collection of two waste fractions in a single body, optimizing space and improving service management.

Inside there is a **double bag holder** with a **total capacity of 100 liters (2 x 50 L)** and **top emptying**, which guarantees hygiene, speed and practicality in cleaning operations.

The container is supplied with a **kit of 5 magnetic pictograms**, easily applicable and interchangeable, to customize the destination of use according to the needs of the context (plastic, paper, organic, glass, general waste). Available on request in **different colors**, to facilitate visual waste coding and improve environmental communication within the spaces.

Organize waste sorting in your environment at its best with the **H1025\_18 container**: practical, resistant and customizable. Request a quote for company supplies now!

### Technical features:

- **Type:** Indoor waste collection container
- **Material:** Painted steel
- **Total capacity:** 100 liters (2 x 50 L)
- **Internal structure:** Double bag holder
- **Emptying system:** From the top
- **Lid:** With double opening
- **Dimensions:** W 38.3 x D 38.3 x H 82.5 cm
- **Weight:** 8.8 kg
- **Included equipment:** Kit with 5 magnetic pictograms
- **Colors:** available in different colors
- **Use:** Indoor – offices, public environments, canteens, schools, common areas

### User benefits:

- **Capacity:** 100 liters in a single compact container.
- **Double opening:** for integrated waste sorting.
- **Hygienic:** and easy to empty thanks to the top system.
- **Customizable:** with magnetic pictograms included.
- **Construction:** in robust and durable steel over time.

### FAQ:

1. **Is the container already divided internally?**

Yes, it is equipped with a double bag holder of 50 liters each.

2. **Are the pictograms included in the package?**

Yes, it is supplied with 5 interchangeable magnetic pictograms.

3. **Is it possible to choose the color of the container?**

Yes, it is available in different colors upon request.

4. **Is the lid fixed or can it be opened?**

The container has a lid with fixed holes to facilitate waste insertion and top access for emptying.

5. **Is it suitable for outdoors?**

No, it is designed for indoor use. For outdoor environments, it is advisable to choose specific versions.

**Mini buying guide:**

For **efficient management of waste sorting** in indoor environments, it is essential to opt for containers that offer **internal division, visual clarity** and **resistant materials**.

The H1025\_18 model offers a **compact yet spacious design**, ideal even in limited spaces.

The **steel structure** guarantees durability and resistance, while the **top emptying system** reduces maintenance time.

The **included magnetic pictograms** make the product immediately operational and easily adaptable to every need.
