

Indoor waste separation bin h86_270

60L waste separation bin with manganese grey steel body, sky blue lid and calibrated opening. Dimensions: approx. W 30 x D 30 x H 89.7 cm.

The **h86_270 waste separation bin** is an elegant, functional and durable product, ideal for waste management in **indoor spaces**. Made of **anti-UV powder-coated steel**, it is designed to ensure long-lasting durability, corrosion resistance and a consistently modern appearance.

The **sky blue RAL 5015** lid, also in anti-UV steel, is equipped with calibrated openings to simplify the disposal of specific waste and promote intuitive and orderly management. The emptying system is practical and fast thanks to the possibility of removing the lid.

The container is equipped with **bag-holding brackets**, which keep the bags always well-positioned (bags not included). The base with a **rubber gasket** ensures stability and protects the floor from scratches and slipping. Additionally, the provided sticker to be applied to the lid makes the type of waste to be deposited immediately recognizable.

With a **capacity of 60 liters** and a compact design, it is the ideal choice for offices, schools, canteens and other indoor spaces that require efficient waste separation solutions.

Make waste separation simpler and more efficient with the **h86_270 indoor bin**: robust, practical and aesthetically elegant, it is perfect for organizing spaces and promoting a clean and tidy environment.

Technical features:

- **Material:** Body and lid in anti-UV powder-coated steel
- **Body color:** Manganese grey
- **Lid color:** Sky blue RAL 5015
- **Capacity:** 60 liters
