Information panel for public spaces h738_126

Double-sided outdoor information panel with aluminum posts and floor-fixable base. Dimensions: W 150 x D 100 x H 200 cm.

The **outdoor information panel h738_126** is designed to display **communications** or **advertising messages** in outdoor environments, ensuring maximum visibility and resistance to atmospheric agents. The structure consists of **two silver anodized aluminum posts**, 2 meters high, finished with upper **closing caps** that protect the structure from water or dust infiltration, ensuring long durability. The panel bases measure **25x25 cm** and are equipped with four holes for **secure anchoring to the ground**, making the entire structure stable and resistant even in adverse weather conditions.

The panel is double-sided, with a surface designed to support **adhesive graphics** on both sides, maximizing visibility and offering the opportunity to communicate from multiple angles. The **horizontal aluminum crossbars** support the **10/10 white sheet metal background** with a **5 mm forex** central core, ensuring solidity and a clean design. The combination of **sheet metal** and **forex** guarantees optimal resistance and a smooth, uniform surface for the application of adhesive graphics.

With its **overall dimensions of 150 x 100 x 200 cm**, the panel is ideal for placing advertising or informative messages in public spaces such as companies, **supermarkets**, **hospitals**, or **commercial areas**. Thanks to its double-sided design, it is perfect for areas with high pedestrian traffic, where visual communication on both sides is essential to capture the attention of passers-by. The **silver finish** of the aluminum posts and the **white surface** of the panel guarantee a modern and professional look, perfect for integrating into any outdoor environment.

Resistant and designed for **outdoor** use, this panel can withstand various climatic conditions, maintaining its stability and the integrity of the displayed graphics. It is a perfect solution for those looking for an easy-to-install, robust display system capable of enhancing visual communication outdoors at its best.

Don't miss the opportunity to improve the visibility of your company or your event! The **double-sided information panel h738_126** for outdoors is the ideal choice for communicating effectively in outdoor environments, ensuring a strong visual impact and a resistant structure. Buy it now and ensure that your advertising messages are always clearly visible and protected from the elements. For larger orders or customized needs, **request a quote** and discover our tailor-made solutions.

User benefits:

- **Maximum double-sided visibility** to display communications from both sides
- **Robust structure** and resistant to atmospheric agents, ideal for outdoor use
- **Secure fixing** to the ground to ensure stability even in adverse weather conditions

- **Durable materials**, such as anodized aluminum and forex, for long life
- **Modern and clean design**, perfect for any outdoor environment

FAQ:

1. **Is this panel suitable for outdoor use?**

Yes, the panel is designed specifically for outdoor use and resists atmospheric agents.

2. **How is it fixed to the ground?**

The base of the posts is equipped with four holes, which allow it to be firmly fixed to the ground with screws or bolts.

3. **Can I apply graphics on both sides of the panel?**

Yes, the panel is double-sided and can support adhesive graphics on both sides for greater visibility.

4. **What materials is the panel made of?**

The panel is composed of two 10/10 white metal sheets with a 5 mm internal forex core, ensuring solidity and a smooth surface for graphics.

Short buying guide:

If your company needs to **communicate effectively in outdoor spaces**, the **double-sided information panel h738_126** represents the perfect solution. Designed to ensure **durability** and **stability** in outdoor environments, it is ideal for advertising or informative displays. Thanks to its construction in **anodized aluminum** and **forex**, it is resistant to atmospheric agents and guarantees a long life over time. Furthermore, the possibility of applying **double-sided graphics** makes this panel an excellent choice for places with a continuous flow of people, such as **supermarkets, hospitals, companies, and shopping centers**. Investing in a resistant and visually impactful panel means improving your communication and increasing attention to your messages.
