

Information panel with 6 slats h738_132

Floor stand with pair of anodized aluminum posts and 6 customizable slats for outdoor use. Dimensions: W 1440 x D 45 x H 2500 mm.

The **h738_132 modular outdoor signage post** is an ideal solution to ensure clear and organized signage in public and private areas, such as companies, hospitals, supermarkets, museums, and commercial spaces. This post is designed to **orient and direct the flow of people** in outdoor areas, providing highly visible indications thanks to its modular and highly customizable structure.

The post consists of a **pair of powder-coated metal uprights**, a material known for its **resistance to atmospheric agents** and the ability to maintain long durability even in demanding outdoor conditions. The posts are equipped on the surface with **ABS end caps**, which protect the upper part of the structure and complete a clean and professional design. The painted steel bases allow for solid fixing to the ground, but for permanent installations it is possible to opt for inground mounting brackets, ensuring greater stability even in situations of prolonged exposure to wind or rain.

The **6 slats** are made of **extruded aluminum** and can be **customized on both sides**, making this post perfect for communicating directional, informative, or safety indications. The slats, with a thickness of 20 mm, are slid into the grooves of the uprights using a simple but secure fixing system, thanks to **locking pins fixed with screws**. The **modularity of the design** allows you to choose the number of slats based on signage needs, making this post suitable for a wide range of applications. The surface of the slats is completely customizable, offering **maximum flexibility** in visual communication.

The **gothic grey** finish integrates perfectly with urban environments and modern architecture, giving the post an elegant and discreet appearance. The generous dimensions of the post, with a height of 2500 mm, make it highly visible even from long distances, ensuring that information is always well perceived by visitors.

Ensure effective and professional signage for your outdoor areas! The **h738_132 modular outdoor signage post** is the perfect choice for directing and informing the public in a clear and organized manner.

FAQ:

1. Can I add more slats in the future?

Yes, the modular structure allows for adding further slats.

2. What are the fixing options?

Painted steel bases or brackets for inground mounting are available.

3. Are the slats customizable on both sides?

Yes, they can be customized on both sides for greater versatility.

4. Is the post resistant to atmospheric agents?

Yes, the materials used are designed to withstand outdoor conditions.

Mini buying guide:

When choosing an **outdoor signage post**, there are several factors to consider to ensure you make the best choice. Consider the amount of information you want to display. Each slat can be customized on both sides, so choose the number of slats based on your needs.

The **modularity of the system** allows you to add more in the future if necessary. Evaluate the environment where you will install the post. If the post is to be installed permanently, the option with inground brackets guarantees greater stability. If you prefer a temporary or modifiable solution, the painted steel bases are the ideal option.

The **post is designed to withstand the weather**. If you are looking for a durable solution, make sure the materials are of high quality, such as the powder-coated metal uprights and the extruded aluminum slats. The **gothic grey** finish suits multiple modern environments. Consider the aesthetics of the place where the post will be installed to ensure it harmonizes with the surrounding architectural style. The slats can be customized on both sides. Carefully evaluate the type of information you wish to communicate and choose a graphic layout that is clear and legible from a distance. This **h738_132** post is the ideal choice.

Investing in a high-quality **modular post** allows you to better manage the signage of outdoor areas, guaranteeing the public an organized experience without disorientation.

Outdoor signage post, modular aluminum signage, customizable signage slats, powder-coated metal uprights, post for companies and hospitals, inground brackets for post, post with painted steel bases, outdoor directional signage, gothic grey finish signage.

**Upon request and subject to a quote, it is possible to customize with different numbers of slats and different heights, and both single-sided and double-sided prints can be requested.*
