

Instrument table with foot pedal h736_04

Stainless steel instrument trolley for operating rooms, with a 640x440 mm rotating top and hydraulic height adjustment via foot pedal.

This **instrument trolley** is designed to meet the rigorous demands of organizing and moving surgical instrumentation within clinics and hospital facilities. The structure, consisting of a frame and a lifting column in **stainless steel**, ensures maximum corrosion resistance and ease of sanitization essential in a sterile environment. The upper tray features rounded edges and corners to prevent injuries and facilitate cleaning, with a **360° rotation** capacity that can be locked in the desired position to optimize ergonomics during surgery.

Technical features

- **Material:** High-resistance stainless steel
- **Height adjustment:** Hydraulic foot pedal system (from 950 to 1350 mm)
- **Load capacity:** 30 kg
- **Work surface:** 360° rotatable with locking system
- **Tray dimensions:** 640 x 440 mm
- **Total dimensions:** 730 x 540 x 950/1350 mm
- **Mobility system:** 3 swivelling wheels ø 75 mm, double, anti-abrasion and non-marking
- **Electrical safety:** 1 electrically conductive wheel included
