

Ironing board with steam iron h16444

Space-saving ironing board for hotels with 1200W steam iron and wardrobe hook. Black metal structure, adjustable height and Auto-Off safety.

The **storable ironing board for hotels** is the ideal solution for accommodation facilities wishing to offer a professional ironing service while maximizing room space. Featuring a robust **black powder-coated metal frame**, this station ensures durability and a modern design that fits elegantly with any type of furniture. The board is **height-adjustable** to meet the various ergonomic needs of guests, while the rubber feet ensure impeccable stability on any surface.

The system includes a **1200W steam iron**, designed specifically for safety in the hotel environment: the **automatic shut-off** function activates after only 30 seconds if the iron is in a horizontal position and after 8 minutes if vertical. Thanks to the dual steam function (horizontal and vertical), the guest can quickly refresh both items laid on the board and hanging garments. At the end of use, the **included hook** allows the entire set to be hung inside the wardrobe, eliminating any visual clutter in the room.
