

IV pole for hospitals h582_112

Stainless steel IV pole with 5-spoke base on wheels and 4 hooks. Adjustable height 135-240 cm for professional clinical and hospital use.

This **professional IV pole** is designed to guarantee maximum stability and reliability within intensive healthcare environments such as hospitals, clinics, and nursing homes. The telescopic structure allows for precise positioning of infusion fluids, while ensuring smooth movement between departments thanks to the base configuration designed for dynamic use. The choice of stainless steel ensures superior resistance to corrosion and ease of sanitization.

Technical features

- Frame material: High-resistance **Stainless steel**
- Base material: Anti-corrosion chromed aluminum
- Base configuration: 5-spoke base equipped with swivel wheels
- Supports: 4 stainless steel hooks at the upper end
- Height adjustment: Telescopic from 135 to 240 cm
- Load capacity: 5 kg per single hook
- Total maximum capacity: 20 kg
