

IV pole suitable for MRI h442_22

Aluminum IV pole with 4 plastic hooks and base with swivel wheels. MRI compatible. Adjustable height.

Infusion support for hospitals and clinics, specifically for **use in areas with a magnetic flux density of up to 3.0 tesla**. Made of **non-magnetic aluminum** with **light-resistant plastic** elements. Equipped with **4 hooks**, **sterilizable drip cup** and **base with swivel wheels** and non-marking tread. **Safe, hygienic** and made from **completely recyclable materials**.

Technical features:

- Load capacity per hook: 2 kg
- Load capacity per system: 8 kg
- Total load capacity: 8 kg
- Material: non-magnetic aluminum
- Base with swivel wheels
- Height adjustable by screw
- Base diameter: 635 mm
- Wheel diameter: 50 mm
- Color of plastic parts: grey/black
- Sterilizable drip cup
- Inner tube diameter: 18 mm
- Number of hooks: 4
- Outer tube diameter: 25 mm
- MRI compatible

INFORMATION

- **Material** aluminum
- **Number of hooks** 4
