

IV Pole with plastic hooks h13_102

AISI 304 stainless steel IV drip stand with adjustable height, 4 hooks and 5-wheel base. Ideal for hospital and home care use.

This **IV drip stand** represents a professional solution for the administration of fluids and intravenous therapies, designed to guarantee maximum stability and hygiene. Made entirely of **AISI 304 stainless steel**, the structure ensures high resistance to corrosion and to the frequent sanitization cycles required in clinical, hospital or home care (ADI) settings.

The support is equipped with a telescopic adjustment system that allows you to adapt the height of the pole according to the needs of the patient and the bed, always ensuring the correct flow of liquids. The five-spoke base with swivel wheels facilitates easy movement between different operating environments, while maintaining a small footprint.

Technical features

- **Material:** High quality AISI 304 Stainless Steel
- **Adjustable height:** from 135 to 215 cm via locking system
- **Suspension system:** 4 high-resistance plastic hooks
- **Capacity:** 1.2 kg per single hook (5 kg total maximum)
- **Mobility:** 5 swivel wheels, one of which is equipped with a parking brake
- **Overall weight:** 2.9 kg for light and safe transport
- **Classification:** Class I Medical Device
