

IV stand with 2 hooks and adjustable height h654_15

Chrome-plated steel IV stand h654_15, adjustable height 110-190 cm. 5-star base on wheels for maximum stability in healthcare settings.

The **IV stand h654_15** is an indispensable support for the administration of intravenous therapies in clinical and hospital settings. Designed to combine **mechanical strength and maneuverability**, this stand facilitates the work of healthcare

personnel while ensuring patient safety during hospital stays or outpatient treatment.

The **chrome-plated steel** structure ensures effective protection against wear and corrosive processes resulting from the frequent use of disinfectant detergents, maintaining aesthetic and functional integrity over time.

Technical characteristics

- **Frame material:** High-resistance chrome-plated steel tubing.
- **Height range:** Telescopic adjustment system from 110 to 190 cm.
- **Upper configuration:** 2 support hooks for infusion bags and bottles.
- **Base:** 5-star anti-tip structure in reinforced nylon.
- **Movement system:** Swivel wheels for smooth gliding on flat surfaces.
