

IV stand with 2 hooks and colored base h740_26

Stainless steel IV stand with colored low-profile base and 5 wheels. Adjustable height up to 2000 mm and 2 durable polyamide hooks.

Professional IV stand designed for intensive use within **hospital facilities, clinics, nursing homes and emergency departments**. The structure is engineered to ensure maximum stability during the administration of therapies, combining a high-resistance **stainless steel** pole with a low-profile base made of epoxy powder-coated steel. The possibility of adjusting the height and the five-wheel configuration allow for smooth management of clinical procedures, facilitating movement even in tight spaces.

Technical features

- **Maximum height:** 2000 mm (adjustable)
- **Pole material:** stainless steel
- **Base material:** epoxy resin-coated steel with low profile
- **Hook configuration:** n. 2 high-strength polyamide hooks
- **Movement system:** n. 5 wheels with 65 mm diameter
