

IV stand with wheels h442_18

Chrome-plated steel IV stand with 4 hooks, 5-spoke non-marking wheel base and adjustable height (1350-2150 mm). Ideal for clinics and hospitals.

The **h442_18** IV stand is a professional solution designed for intensive use in hospitals, clinics, and nursing homes. Thanks to its **chrome-plated steel** structure, the device combines mechanical strength and ease of sanitization, fundamental elements in healthcare environments. The stand is designed to facilitate patient mobility, allowing for the safe transport of infusion bags and bottles.

The telescopic adjustment system via screw allows for setting the optimal height between 1350 and 2150 mm, adapting to different infusion configurations. The base is equipped with **5 swivel wheels** with non-marking tread, which ensure smooth movement and stability on various hospital surfaces. Assembly is extremely fast, making the equipment immediately operational.

Technical features
