

Key cabinet for office h824_06

Professional key cabinet in aluminum and plexiglass, 55x69 cm. 96 numbered slots and cylinder lock. Ideal for offices and schools.

The **professional key cabinet** is designed to ensure an orderly and secure management of sets of keys in high-traffic or administrative management contexts. The structure combines an **aluminum frame with rounded edges**, to prevent accidental injuries, with a **galvanized sheet metal backing covered in PVC**, a material that provides mechanical stability and wear resistance. The **transparent plexiglass** hinged door allows for immediate visual monitoring of the contents, while keeping the devices protected from dust and unauthorized access via a **security cylinder lock**.

Technical features
