Key cabinet for offices h824_08

24-slot key cabinet in aluminum with galvanized back and plexiglass door. Design with rounded corners and cylinder safety lock.

The **professional key cabinet** is designed to meet the organization and storage needs in dynamic work contexts such as offices, corporate complexes, and hospitality facilities. Thanks to the combination of resistant materials and an optimized internal configuration, the device ensures orderly access management and constant protection of key sets.

The structure is made of **aluminum with rounded profiles** to minimize the risk of accidental impacts, while the **galvanized sheet metal** back provides mechanical stability to the entire frame. The transparent plexiglass front door allows for immediate visual monitoring of the contents without the need for continuous opening.

Technical features

- **Structure:** Aluminum with accident-prevention rounded corners
- **Back:** High-resistance galvanized sheet metal
- **Door:** Transparent plexiglass swing door
- **Locking system:** Cylinder lock with keys supplied
- **Capacity:** 24 key hooks
- **Dimensions:** 29 x 37 cm (WxH)
