

Key display cabinet h824_09

Professional 96-position aluminum key cabinet, dimensions 55x69 cm, with transparent plexiglass door and security lock.

The **key display cabinet** is a professional solution designed for the organization and secure storage of keys in high-access density contexts. Featuring a solid **aluminum** structure and a **galvanized sheet metal** back, this support guarantees stability and a long operational life. The presence of a **transparent plexiglass hinged door** allows for immediate visual monitoring of the contents, facilitating daily control operations without the need for continuous opening.
