

Key safe box h7683

Security key box with digital electronic combination for hotels. Dimensions: W.86 x D.55 x h.127 mm.

The **mini key safe** is an innovative and secure product for all **accommodation facilities** such as **hotels, bed and breakfasts** and **holiday homes**. The main advantage of this product is to **ensure quick check-ins and check-outs** at **any time** the guest desires. The **security system** on which it is based, in fact, provides for the door to be opened only by entering **a code** to be communicated to the guest in advance. In this way, keys can be collected or dropped off at any time without compromising the security of the facility.

Technical features:

- Digital electronic combination
- Programmable 4-8 digit combination.
- Internal light and backlit keypad
