

Key safety lock box h200_36

Mini key safe with sliding protective cover. For keys up to 9 cm long.

Mini key safety lock box with wall mounting, ideal for being installed at the entrance of B&Bs and holiday homes and in car rental garages. Thanks to the **4-digit code** opening and the sturdy zinc structure, it guarantees excellent security, providing easy and central access. Equipped with a **sliding cover** to protect the combination dials from atmospheric agents. Allows you to set and reset your own code choosing from 10,000 combinations. In addition, thanks to the **auto-stop of the dials**, the numbers click into the correct position, allowing the code to be entered even in low light conditions.

Technical features:

- Dimensions: W9 x D4 x H12 cm
- For keys up to 9cm long
- Material: zinc die-casting
- Sliding cover for protection of the combination dials
- 4-digit combination, individually adjustable
- Approximately 10,000 free and resettable combinations
- Combination dials with auto-stop for easy opening in low light conditions
- Wall mounting
