

Kindergarten school storage unit h979_26

School storage unit made of resistant panels, 900x400x1870 mm. Large-capacity vertical design with customizable doors in 8 color variants.

The **h979_26 storage unit** is designed to optimize organization and safety within educational environments such as kindergartens and primary schools. Thanks to its vertical development and the combination of closed and open compartments, it effectively solves the problem of storing teaching materials, books, and personal items in high-traffic areas. The robust structure integrates with a modern aesthetic, capable of positively influencing the classroom atmosphere through the conscious use of color.
