

Kit consisting of 3 outdoor bins h287_378

Kit of 3 x 120L bins in galvanized steel and Nordic pine (120x44x90 cm). Elegant solution for outdoor waste sorting with integrated ashtray.

The kit consisting of 3 outdoor bins **H287_378** represents a professional and high-profile aesthetic solution for waste sorting management in urban and hospitality contexts. Designed to withstand intensive use, the system combines the solidity of steel with the natural warmth of wood, ensuring a total capacity of **360 liters** distributed over three independent 120-liter modules each.

The load-bearing structure is made of high-thickness **galvanized steel sheet**, finished with epoxy powder coating that ensures long-lasting protection against corrosion. The integration of an **embedded ashtray** in the opening of one of the modules makes this kit a complete tool for maintaining public decorum, meeting the needs of high-traffic areas such as squares and parks.

Technical features

- **Total capacity:** 360 liters (3 modules of 120 liters each)
- **Structure material:** 10/10 thickness galvanized steel sheet
- **Cladding:** Nordic pine slats pressure-treated in autoclave with non-toxic salts
- **Finish:** Oven-baked epoxy powder coating (180–200°C)
- **Kit dimensions:** W 120 x D 44 x H 90 cm
- **Single bin dimensions:** W 40 x D 44 x H 90 cm
- **Opening system:** Top with lid for easy access
- **Emptying:** Manual with internal bag holder system
- **Included accessories:** Integrated ashtray in one of the three modules
- **Anchoring:** Floor-level fixing for maximum stability
