

Lacquered metal umbrella stand with round holes h413_89

Cylindrical lacquered metal umbrella stand with 5 mm perforation, Ø 25xh.50 cm. Breathable geometric design ideal for offices and waiting areas.

The **cylindrical umbrella stand** in lacquered metal represents a functional and professional solution for the organization of entrances in commercial and executive settings. The structure is characterized by a dense pattern of **5 mm round holes**, which in addition to defining a contemporary geometric aesthetic, fulfills the technical function of ensuring constant internal ventilation. This feature facilitates the natural drying of umbrellas, avoiding the stagnation of moisture. The choice of lacquered metal ensures a resistant surface that is easy to sanitize, integrating with sobriety into various professional furnishing styles.

Technical features
