

Laminate top desk with grid undershelf h848_47

Desk h848_47 (70x50x71h cm) size 5 in ivory laminate 20 mm thick with beech edge and Ø 28 mm tubular frame. Integrated grid undershelf.

The **Laminate top desk with grid undershelf h848_47** is a single-seater rectangular table designed for setting up individual study stations in educational and school environments. This furniture meets the operational need to combine a stable and coplanar work surface with orderly management of teaching materials, avoiding clutter on the top thanks to the integration of a practical lower storage compartment. Aimed at schools, educational institutions, and training centers, the desk is identified by school size 5, measuring 70 x 50 cm with a height from the ground of 71 cm and a net weight of 11.25 kg. The load-bearing structure consists of tubular elements with a diameter of 28 mm, provided in Light Grey and Metallic color variants. The worktop is made of Ivory color laminate with a thickness of 20 mm and finished with a beech edge, completed by a functional grid undershelf.
