Lamp post outside cast aluminum with two lights h16894

Lamp post outside cast aluminum with two lights

Lamp post for garden with two lamps facing upwards made of die-cast aluminum. Each lamp has a diffuser in transparent polycarbonate, a material highly resistant and weather resistant and impact resistant.

The connection for the bulb is E27, the diameter of the bulb is 27mm.

The lamp has a degree of protection IP44. IP is a code that indicates the level of protection of electrical equipment against accidental or intentional contact with the human body or with an object, and protection against water and weather, so important especially when you have to build a plant outdoors. It is important that the entire apparatus electrical / optical of our product is adequately protected from the elements (dust, flies, rain, humidity, etc.) in order to maintain the operation in time. At the end of the fixed IP followed by two numbers, the first number signals the protection against access of solid bodies, the value of 4 indicates that the equipment is protected against solid bodies larger than 1 mm. The second number indicates the protection against access of liquids. The value 4 signals that the device is protected from splashes.

The lamp is Class 1 insulation, the insulation class is a value that indicates the degree of protection from the risk of electric shock due to a fault. Appliances with protection class 1 are those in which in addition to basic insulation is a further protection from the connection, with the classic yellow-green cable with the grounding system of the electrical installation of the building.

Features:

- height 290 cm
- Class 1
- type of connection for the bulb E27
- degree of protection IP44
- voltage 230v 50hz
- width 73 cm
- width single lamp 21 cm
- two lights

INFORMATION

- **Width** 73 cm
- **Material** aluminum
