Large examination couch h13_82

Examination couch for medical clinics width 80 cm. Electronically adjustable height.

Examination couch for medical practices with electrical height adjustment via foot control (low voltage 24 V). Equipped with a movable section, gas spring-assisted headrest adjustment system (with nose-mouth hole) and fixed leg section. The wide headrest can be adjusted positively and negatively and also functions as a backrest. The **padding is made of high-density foam** upholstered in high-quality vinyl with flame-retardant properties. The laterally open frame allows access for patient lifting systems or electromedical therapy trolleys. Lifting capacity 200 kg.
