

Portable washbasin h21848

Self-contained sink in stainless steel **with foot control**. Equipped with tap and **soap dispenser**. Dimensions: **W.45 x D.45 x h.125 cm**.

The **portable washbasin** is the right solution for complying with the main hygiene standards, suitable for outdoor events such as fairs, markets and festivals.

Made entirely of **stainless steel**, a material that is highly resistant to corrosion and durable over time. The sink is easy to install and does not require water inlets, drains or electrical systems.

This sink features a system that works via a **hydraulic button** that pumps water from one of the tanks located inside; the other tank is for waste water.

The **washbasin** is easy to transport thanks to the convenient wheels and the practical towing handle.

The **h21848 washbasin** is complete with:

- 1-liter automatic soap dispenser (battery-powered)
- towel dispenser (allows the insertion of standard towel/glove boxes)
- waste bin with swinging lid
- tap

Technical features:

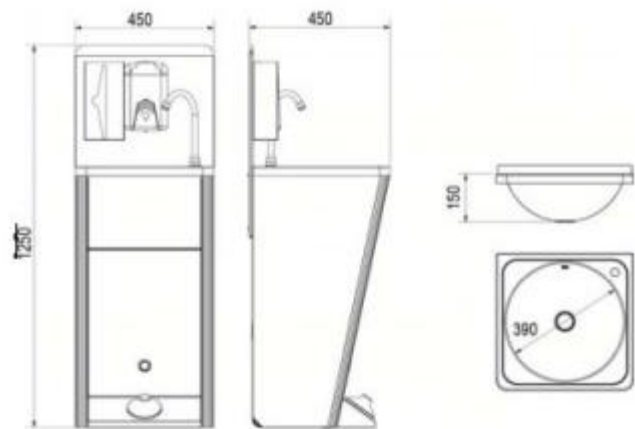

- Material: stainless steel
- Finish: satin
- Dimensions: W.450 x D.450 x h.1250 mm
