

Leaflet display stand with 9 shelves h738_151

Floor-standing aluminum and metal display for vertical A4 leaflets, H 175.6 cm, with 9 tiltable and adjustable acrylic shelves.

The **h738_151 leaflet display stand** is a professional system designed for managing and enhancing information material in public and corporate contexts. The structure combines a **silver anodized aluminum post** with a 70x45 mm oval section with a **high-stability metal circular base**, ensuring an organized presentation of A4 vertical brochures and booklets.

The system stands out for its high configuration flexibility: the **9 transparent acrylic shelves** are equipped with metal attachments that allow for **height adjustment** and **custom tilt**. This feature ensures optimal visibility of contents and ergonomic access for the end user, making it an indispensable tool for indoor communication.
