

Lectern for public spaces h109_318

Lectern for urban furniture in painted galvanized steel, 100x50 cm, anchor fixing, for parks and paths.

The lectern represents a **functional urban furniture** solution intended for parks, paths, and outdoor public spaces. Made of **galvanized and painted steel**, it guarantees weather resistance and durability over time. The structure consists of two round tube supports welded to a square tube frame, which supports an informative or display panel.

Fixing is carried out by means of a **perforated plate for floor anchoring**, ensuring stability and ease of installation in public contexts.
