

Designer metal lectern h140202

Urban furniture lectern in galvanized steel with polycarbonate panel. Height 127 cm, accessible to people with walking difficulties. Suitable for historic centers and squares.

Urban furniture lectern designed for historical and public contexts, combining aesthetic elegance with guaranteed accessibility. It allows for the display of descriptive information relating to monuments, places of interest, and local initiatives, solving the need for communication in open spaces while maintaining visual coherence with the surrounding environment. Robust structure and easily accessible even to people with walking difficulties.

Technical features

- **Structural frame:** Ø 40×1.5 mm galvanized steel round tube, shaped with decorative elements in the upper part
- **Horizontal crossbeams:** Ø 20×1.5 mm galvanized round tube in the lower part for stability
- **Reading surface:** 12/10 thick galvanized sheet metal with "U" shaped galvanized profile perimeter edging for panel locking
- **Panel:** 3 mm thick compact transparent polycarbonate, transparent and impact-resistant
- **Finish:** oven-baked with "gunmetal" color epoxy powder
- **Plate:** shaped in the lower part for identification or sponsorship
- **Fixing:** prepared with holes for anchoring to the ground using anchor bolts and expansion plugs
- **Overall dimensions:** width 43 cm, height 127 cm, depth 39 cm, weight 9.8 kg
- **Upper posting useful space:** width 30 cm, height 43 cm
- **Lower posting useful space:** width 35 cm, height 8 cm

Optionals on request

- **Printing on polycarbonate:** high-resistance silk-screen system with description of the place, images, and personalized logos according to customer instructions
- **Lower plate sticker:** high-resistance printed PVC with municipal name or sponsor logo
