

Metal lectern for monuments and public works h140201

Lectern for urban furniture in galvanized steel, baroque style, 89mm column, 38x39cm reading surface, 124cm height, 20kg, gunmetal metallic epoxy finish.

Lectern designed for urban furniture and historical enhancement contexts, conceived for historical centers, squares, and public monuments. It represents a **vertical external communication** solution that combines informative functionality with high aesthetic value, solving the need to display content in architecturally sensitive contexts.

Made through **artisanal Made in Italy craftsmanship**, each piece is characterized by manufacturing uniqueness, with manually shaped volutes and finishes that reflect the classical baroque language. The use of **fully galvanized steel** guarantees durability in outdoor environments and resistance to corrosion.
