

Lemon-shaped spring rider for parks h521_13

Lemon-shaped spring rider in PEHD polyethylene and phenolic wood, 100x47x87 cm. Ergonomic and safe design certified for public play areas.

The h521_13 spring rider represents a safe and durable play solution for furnishing green areas and playgrounds. Thanks to its cute lemon-shaped silhouette, it stimulates the interaction of young children, offering a controlled and harmonious oscillating movement experience. The structure combines the resistance of **PEHD polyethylene** panels with the stability of a **non-slip phenolic wood** seat, ensuring comfort and safety even in variable weather conditions. Designed to withstand intensive use in public contexts, it integrates robust fixing systems for stable and long-lasting installation.

Technical characteristics

- Dimensions: L100 x W47 x H87 cm
- Impact area: 9 sqm
- Design: Lemon-shaped silhouette
- Spring: High-thickness steel (20 mm)
- Seat: Phenolic wood with non-slip finish
- Silhouette material: High-density PEHD polyethylene
- Fixing: Perforated iron sheet plates for ground anchoring
- Safety: Rounded edges and colored plastic screw caps
- Age of use: 1-12 years
- Compliance: Certified according to UNI EN1176 standards
