

Lilac bench against eating disorders h140_568

Urban furniture lilac bench h140_568, straight model with anatomical design in galvanized steel. Designed for awareness against eating disorders (ED). Weight 46 kg.

The **urban furniture bench h140_568** is a seat with high symbolic value, characterized by the distinctive **lilac** coloring to promote awareness against eating disorders (ED). The structure consists of two sturdy supports with opposing arches in galvanized rectangular tube (50x20x3 mm), adorned with galvanized rounds. The seat-back shell, designed to offer an **anatomical shape**, is made with 25 profiles in round galvanized steel tube (Ø 20 mm) complete with PVC end caps. Thanks to the rigorous sandblasting and thermosetting powder coating processes, the bench guarantees high resistance to atmospheric agents and intensive use in public spaces.
