

Lilac eating disorder awareness bench 4005 h140_569

Lilac urban furniture bench h140_568, straight model with anatomical design in galvanized steel. Designed for awareness against eating disorders (ED). Weight 46 kg.

The **urban furniture bench h140_568** is a seat with high symbolic value, characterized by its distinctive **lilac** coloring to promote awareness against eating disorders (ED). The structure consists of two robust supports with opposing arches made of rectangular galvanized tube (50x20x3 mm), adorned with galvanized rounds. The seat-back shell, designed to offer an **anatomical shape**, is made with 25 round galvanized steel tube profiles (Ø 20 mm) complete with PVC end caps. Thanks to the rigorous processes of sandblasting and thermosetting powder coating, the bench guarantees high resistance to atmospheric agents and intensive use in public spaces.
