

Linear bike rack 4 sockets h859_21

Electrified bike rack with charging sockets. Dimensions: W.1650 X D.390 X H.1300 mm.

The charging station for electric bikes with bike stalls is ideal for outdoor areas of offices, shopping centers, and accommodation facilities.

The product features a **galvanized steel base** with structural uprights and bike racks with a thickness of 2.50 mm and is equipped with 6 pre-drilled holes for ground anchoring and removable adjustable feet for possible ground fixing. **The rack is equipped with 4 always-active outdoor Schuko sockets** with child-safe protective covers and **4 bike stalls** with anti-fall support with three different thicknesses for wheel sizes up to 29" (excluding FatBikes). Each stall is equipped with an anodized steel chain that can be used upon insertion of a 1€ coin as a deposit or payment, with an instruction display for chain locking/unlocking.

Technical features:

- Electric bike and scooter charging station
- 4 free and always-active charging sockets
- 4 bike stalls
- Protection degree: IP66
- 12V 10MM front LEDs in green, continuous lighting
- Residual current device (RCD) and Circuit breaker up to 16 Amperes
- Voltage: 220V Single-phase
- 3kw network
- 4 bike stalls
- Instruction display for chain locking/unlocking
- Chain use: € 1
- Pre-installed cable ø2.5
- Supplied cable L.5 m
- IP68 cable gland
- IP67 industrial socket
- Earthing
- Switch / circuit breaker
- Available in different colors
- Dimensions: W.1650 X D.390 X H.1300 mm
