

Liquid soap and hand sanitizer dispenser h647_26

Automatic touch-free dispenser in painted stainless steel, 0.95 liter capacity for 800-950 doses. Compact design for liquid soap or sanitizer.

The **touch-free soap dispenser** is a professional solution designed to ensure the highest hygiene standards in high-traffic environments. Made with a robust body in **powder-coated stainless steel**, it combines structural resistance and a minimal aesthetic available in white or matte black finishes. The automatic dispensing system is managed by a **smart sensor** that detects the presence of hands, eliminating any need for physical contact and reducing the risk of cross-contamination.

Technical features

- **Operation:** electronic automatic via proximity sensor.
- **Power supply:** battery-powered for versatile installation without wiring.
- **Material:** outer casing in stainless steel with protective powder coating.
- **Capacity:** 0.95 liters, ensuring an autonomy between 800 and 950 doses per refill.
- **Compatibility:** suitable for dispensing liquid soap or hand sanitizing gel.
- **Indicators:** integrated LED light for signaling activity status.
- **Included components:** internal refillable plastic container and top protection plate.
- **Weight:** 2.3 kg, guaranteeing stability and solidity of the device.
