

## Liquid spill containment pallet with wheels h874\_36

Mobile spill containment pallet for liquids, capacity 2 drums of 200 liters. Dimensions: 1280 x 800 x h 1110 mm. Sump capacity: 225 lt.

The **liquid spill containment pallet for 2 drums of 200 lt h874\_36** is a robust and effective solution for the management and **storage of liquids in industrial contexts**. With a **containment capacity** maximum of **two 200-liter drums**, this pallet ensures safety and practicality during collection and handling operations.

Made of **3 mm sheet steel**, it ensures a **solid and resistant structure**, adatta to intensive use. The **galvanized grid** supports a **load up to 1000 kg/m²**, making it ideal for managing liquids even in high-frequency operational contexts. The **profiled edges** not only give greater strength to the structure, but also offer secure support for the grid, improving overall stability.

The handling system is made simple thanks to the **4 polyamide wheels**, of which **2 swivel (one equipped with a brake)** and **2 fixed**, with a diameter of 180 mm and a total height of 225 mm. The integrated **push handle** allows for easy movement of the pallet, even in tight spaces, without compromising stability. Painted in **RAL 2000**, it offers high visibility, a professional appearance, and wear resistance.

Optimize industrial liquid management with the **h874\_36 pallet**! Designed to last and simplify operations, it is the ideal choice for safe and efficient work. **Buy now or contact us for more information!**

### Technical features:

- **Dimensions:** 1280 x 800 x h 1110 mm
- **Sump capacity:** 225 lt
- **Maximum capacity:** 2 drums of 200 lt (not included in the supply)
- **Structure material:** 3 mm sheet steel
- **Grid:** galvanized, load capacity 1000 kg/m²
- **Profiled edges** as grid support
- **Wheels:** 2 swivel (1 with brake) and 2 fixed, diameter Ø 180 mm
- **Wheel height:** 225 mm
- **Handle:** integrated for pushing and handling
- **Color:** RAL 2000
- **Weight:** 78 kg
- **Strap and fixing bracket not included in the supply**

### User benefits:

- **Simplified handling:** Equipped with resistant wheels and handle for easy movement.
- **Guaranteed stability:** Galvanized grid and profiled edges offer secure support for drums.
- **Suitable for intensive use:** Made with resistant materials, it is designed for industrial environments.
- **Certified safety:** Design that minimizes the risk of spills and optimizes containment.

- **Versatility of use:** Compatible with various work contexts thanks to its dimensions and characteristics.

#### FAQ:

1. **What are the advantages of the installed wheels?**

Polyamide wheels allow for easy movement of the pallet, even fully loaded. One swivel wheel is equipped with a brake to ensure stability during use.

2. **Is it possible to use the pallet in indoor and outdoor environments?**

Yes, thanks to its steel structure and galvanized grid, it can be used both indoors and outdoors.

3. **How much weight can the grid support?**

The galvanized grid has a maximum capacity of 1000 kg/m<sup>2</sup>, making it suitable for heavy-duty applications.

4. **What is the maximum capacity of the pallet?**

The pallet can hold up to 225 liters of liquids and support two drums of 200 liters each.

5. **How is safety guaranteed during use?**

The robust structure, profiled edges, and the brake on one of the swivel wheels ensure stability and operational safety.

#### Short buying guide:

The **h874\_36 pallet** is an essential choice for those who need a practical and reliable solution for managing industrial liquids. Its **steel structure**, combined with the **galvanized grid** and the wheel system, ensures robustness and ease of use, even in intensive work contexts.

Designed to contain and transport up to 2 drums of 200 liters, this pallet represents a safe investment to optimize your workspace. Before proceeding with the purchase, evaluate the dimensions and specific needs of your environment to ensure that the product fully meets your requirements.

**Choose the h874\_36 pallet** for practical and effective management of industrial liquids!

*Liquid spill containment pallet, industrial drum storage, 2 drums 200 lt pallet, liquid management for industry, pallet with galvanized grid, industrial containment system, RAL 2000 pallet, mobile solution for liquids, container for industrial oils, structure with wheels, safe liquid collection, industrial steel pallet, drum transport on wheels, pallet with push handle, resistant liquid container for intensive use.*
