

Liquid storage sump with perforated tool wall h874_28

Collection sump for industrial liquids, with galvanized grid and perforated tool wall, suitable for holding up to 2 x 200-liter drums. Dimensions: 870 x 1290 x h 2015 mm.

The **liquid containment sump h874_28** is an efficient solution for the safe storage of industrial liquids, designed to hold up to **2 x 200-liter drums**. Made of robust **3 mm steel sheet**, it offers a resistant and reliable structure for daily use in industrial contexts.

The product is equipped with a high-capacity **galvanized grid** (load capacity up to 1000 kg/m²), ensuring stability and safety even for heavy loads. The **integrated tool wall** features 10 mm square perforations in a 38 mm grid, allowing for personalized tool placement for more organized and practical management of work activities.

The sump is easy to move thanks to the **hot-dip galvanized push handles** and **4 polyamide wheels**, designed to ensure stable and effortless movement. The wheels, including **two fixed and two swivel (one with brake)**, have a diameter of 180 mm and are ideal for use on flat surfaces.

With a **collection volume** of **215 liters**, the sump guarantees safe management of any spills, respecting safety and compliance requirements. **Painted in RAL 5012 color.**

Choose the **h874_28 containment sump** for safe and practical management of industrial liquids. Ideal for 2 x 200-liter drums, it combines resistance, mobility, and functionality. **Order now!**

Technical features:

- **Dimensions:** 870 x 1290 x h 2015 mm
- **Collection volume:** 215 lt
- **Capacity:** 2 x 200 lt drums
- **Total weight:** 122 kg
- **Sump material:** 3 mm thick steel sheet
- **Galvanized grid:** load capacity up to 1000 kg/m²
- **Tool wall:** square perforations (10 mm), 38 mm grid
- **Wheels:** 2 fixed and 2 swivel in polyamide, Ø 180 mm (1 swivel with brake)
- **Handles:** hot-dip galvanized for easy pushing
- **Color:** RAL 5012

User benefits:

- **Safe storage:** designed to hold up to 2 x 200-liter drums.
- **Easier mobility:** push handles and robust wheels for smooth movement.
- **Optimized space:** tool wall with perforations for better organization.
- **Resistance and durability:** high-quality materials for intense and prolonged use.
- **Versatile solution:** ideal for different industrial sectors and work environments.

FAQ:

1. **What is the function of the tool wall?**

The tool wall allows you to place and organize tools and accessories in a practical way, thanks to the square perforations that allow for flexible arrangement.

2. **What features make the wheels suitable for industrial contexts?**

The 180 mm polyamide wheels offer high resistance, stability, and smoothness of movement, ensuring safe and reliable transport.

3. **How much collection capacity does this sump offer?**

The sump has a collection volume of 215 liters, ideal for containing any spills or leaks.

4. **For which environments is its use recommended?**

This sump is ideal for warehouses, workshops, and industrial contexts where it is necessary to manage liquids safely and organize work tools.

5. **Is the sump easy to move?**

Yes, thanks to the push handles and swivel wheels, one of which is equipped with a brake, it can be moved without difficulty.

Mini buying guide:

Opting for the **h874_28 containment sump** means choosing a solution designed to combine practicality, resistance, and safety. With the capacity to store up to **2 x 200-liter drums**, this product is ideal for industrial environments where it is essential to manage liquids effectively.

The presence of a **perforated tool wall** improves functionality, allowing for better organization of work tools. The **robust wheels** and **push handles** allow for easy movement, making the sump versatile and convenient even in tight spaces. Before purchasing, evaluate the dimensions and needs of your workspace to ensure compatibility.

Investing in the **h874_28** means equipping yourself with a resistant and durable product, designed to simplify daily operations and improve safety at work.
