

Little crab spring rider h521_19

Crab-shaped spring rider made of HDPE polyethylene and steel, UNI EN1176 certified, ideal for playgrounds and beach resorts. The **h521_19 professional spring rider** represents a safe and high-performing play solution, specifically designed for furnishing public and private play areas. Featuring a crab-shaped silhouette, this element combines an attractive design with a high-resistance mechanical structure, ideal for stimulating children's balance and coordination in a context of total safety. The configuration of materials makes it particularly suitable for installation in **beach resorts**, urban parks, and outdoor areas subject to intensive use.
