

Long semicircular table for kindergarten h681_37

Semicircular table in solid FSC beech wood and HPL laminate (140x90x52 cm), ideal for educational and group activities in nursery schools.

The **long semicircular table h681_37** is a professional furniture solution designed specifically for nursery school and kindergarten environments. Its particular geometry is designed to optimize the work surface, facilitating frontal interaction between the educator and small groups of children (3-6 age group) and encouraging socialization during educational and recreational activities.

Technical features

- **Dimensions:** W 140 x D 90 x h 52 cm.
- **Supporting structure:** 8 legs in solid FSC-certified beech wood, diameter 60 mm, with non-toxic water-based natural finish.
- **Fixing system:** Mechanical coupling with threaded pin and socket embedded in a patented tear-proof plate, for superior stability without the need for an under-top frame.
- **Worktop:** E1 class birch plywood (thickness 21 mm) with double edging and 9/10 HPL laminate coating.
- **Top properties:** Magnolia matte finish, scratch-resistant, stain-resistant and fire-retardant in Class 1 fire reaction.
- **Safety:** Fully rounded and naturally polished edges to prevent impact trauma.
- **Base:** Adjustable noise-reducing caps in resistant technical polymer, ideal for protecting school floors.
