

## Luggage and garment trolley for hotels h09186

Stainless steel luggage and garment trolley with 140 mm wheels. Compact and functional structure for hotels. Dimensions L100xW56xH160 cm.

The **stainless steel luggage and garment trolley** represents a multi-functional solution designed to optimize reception operations within hotels and accommodation facilities. Thanks to its dual configuration, it allows for the simultaneous handling of suitcases on the solid sheet metal base and the positioning of clothing on the upper rod, solving the operational problem of fragmented guest luggage movement. The structure, entirely made of **stainless steel tubing**, guarantees high resistance to daily intensive use, while maintaining a professional and sober aesthetic profile suitable for any furnishing context.

## Technical features

- Function: Combined luggage and garment rack
- Frame material: Stainless steel tubing
- Base material: High-resistance sheet steel
- Total dimensions: L.100 x W.56 x h.160 cm
- Movement system: 4 wheels with 140 mm diameter
- Wheel configuration: 2 fixed wheels and 2 swivel wheels
- Design: Bridge structure for vertical space optimization
