

## Luggage rack for hotel room h514\_11

Black steel luggage rack for hotel room. Folding structure and **nylon straps**. Straps available in different colors.

The **luggage rack for hotel room h514\_11** is a professional solution designed for hotels and guest houses that wish to ensure maximum comfort for their guests. Made of **steel with a black powder coating**, this support combines an elegant design with a robust and resistant structure, ideal for facilitating the preparation and organization of luggage. A distinctive feature of this model is the **nylon straps** fastening system using pressure buttons: this technical solution makes cleaning or replacing the straps in the long term extremely simple. Thanks to the **folding design**, the luggage rack can be conveniently stored when not in use, eliminating any unnecessary clutter inside the room and optimizing the operational spaces of the accommodation facility.
