

Magnetic whiteboard for school h364_77

Magnetic whiteboard in lacquered steel with pen holder. Dimensions: 100 x 70 cm.

The **magnetic whiteboard for school H364_77** is an essential educational tool, designed for daily use in classrooms and training environments. It can be used with both **magnetic aids** and **dry-erase markers**, offering maximum versatility during lessons, group activities, and explanation moments.

The board is made of **lacquered steel**, a practical finish for writing and erasing, and is designed to last over time. The **aluminum supporting structure**, with folded edges, ensures solidity and a clean aesthetic; the **rounded plastic corners** increase safety in the classroom, reducing the risk of impacts.

It is **designed for wall mounting** and includes a **snap-on pen holder**, useful for keeping markers and accessories always within reach.

Even though teaching has evolved with active methodologies and innovative approaches (laboratory teaching, flipped classroom, debate, TEAL), the whiteboard remains a “must” because it facilitates explanation, discussion, and the shared construction of content. It is particularly useful in **cooperative learning** and **peer education** activities, where the immediate visualization of ideas makes the work more effective.

Choose the robust and functional **magnetic whiteboard for school H364_77** for your classroom. Contact us for information or for requests on multiple quantities for schools and institutes.

Technical features:

Yes, it is designed for wall mounting.
4. **What material is the surface?**
The surface is made of lacquered steel.
5. **What are the dimensions?**
The dimensions are 100 x 70 cm.

Mini buying guide:

To choose a school whiteboard, first evaluate the dimensions based on the reading distance in the classroom and the available wall space: the **100x70 cm** format is suitable for many classrooms and support spaces. Then verify that the surface is **magnetic**

if you plan to use cards, sheets, or teaching aids with magnets. Finally, in school contexts, it is important to consider safety: **rounded corners** and a stable structure help reduce impacts and make the board more suitable for daily use with students of all ages.

School magnetic whiteboard, 100x70 magnetic whiteboard, lacquered steel board, dry-erase board, board with pen holder, wall board for classroom.
