

Market display stand h757_09

Display stand for fruit, vegetables and flowers, with anti-accident rounded corners. Platform dimensions: 120 x 120 cm. Front foot H: 56 cm. Rear foot H: 82 cm.

The **market display stand h757_09** is designed to offer a stable and safe solution for the display of **fruit, vegetables and flowers** in markets and shops. The structure is made with **30x18 mm steel profiles**, guaranteeing solidity and resistance over time. The **120 x 120 cm** loading platform is robust and can support up to **55 kg/m²**, making it suitable for substantial loads.

The legs are designed with a **98° angle** opening, offering superior stability during use. The **rounded corners in die-cast aluminum** provide an **anti-accident design**, preventing accidental impacts. Assembly using **bolts** ensures a robust and durable structure. The **height of the front feet** is **56 cm**, while that of the **rear feet** is **82 cm**, guaranteeing an inclined display surface for optimal product visibility.

Furthermore, the stand is completely **recyclable**, an added value for those who desire an eco-sustainable solution. Ideal for outdoor markets and shops, it is designed to offer practicality and resistance.

Renew your display space with the **h757_09 market stand**. Robust, stable and safe: the ideal solution for a perfect presentation of your products! **Order now** to improve the efficiency of your business!

Technical features:

- **Loading platform dimensions:** 120 x 120 cm
- **Front foot height:** 56 cm
- **Rear foot height:** 82 cm
- **Structure:** 30x18 mm profile
- **Oval tubes:** 50 mm
- **Round tube:** 10 mm
- **Assembly:** via bolts
- **Corners:** rounded in die-cast aluminum
- **Load capacity:** 55 kg/m²
- **Ecological feature:** recyclable

User benefits:

- **Guaranteed stability:** The inclined structure with legs opening at a 98° angle ensures optimal stability.
- **Robustness and resistance:** High-quality materials for a durable and solid stand.
- **Anti-accident safety:** Rounded corners to prevent accidents.
- **Easy to use:** Simple and practical design for an efficient display.
- **Eco-friendly:** Recyclable materials for environmental care.

FAQ:

1. **What are the dimensions of the loading platform?**
The platform dimensions are 120 x 120 cm, ideal for a wide display of products.
2. **Is this stand weather resistant?**
Yes, the structure is designed to withstand moderate weather conditions, ideal for use in covered outdoor environments.
3. **How does it guarantee safety during use?**
The rounded die-cast aluminum corners reduce the risk of injury, making it safe even in crowded environments.
4. **Is it easy to transport?**
Yes, thanks to its solid but lightweight structure, the stand is easy to move and position where needed.
5. **What is the load capacity of the stand?**
The stand has a maximum load capacity of 55 kg/m², ensuring a safe and stable display of products.

Buying mini-guide:

The **market display stand h757_09** is an ideal choice for those who need a solid and stable display of **fruit, vegetables and flowers** in markets or shops. The steel structure with resistant profiles and rounded corners offers safety and practicality. With an **inclined surface** and a load capacity of **55 kg/m²**, it is perfect for displaying a wide range of products in an efficient and highly visible way.

Thanks to its **recyclable** structure, it represents a sustainable and environmentally responsible solution. Ensure that the **dimensions** and **load capacity** are compatible with your display needs for an optimal purchase.
