

market stall 100 x 150 cm with aluminium h757_42

Slanted stall with aluminium top and independent front feet. Dimensions: 100 x 150 x H front foot 64 cm and H rear foot 86.5 cm.

The **fruit display stall H757_42** is a professional slanted stall designed for setting up street vending spaces, local markets, and fairs. Its structure is designed to offer **stability, robustness, and optimal product visibility**, making it ideal for the orderly display of **fruit, vegetables, and flowers**.

The **100 x 150 cm** display top is covered in **aluminium sheet** with a 9 cm collector edge. The supporting structure is made of **resistant 35x20 mm aluminium profile**, which combines **lightness and solidity**, making the stall suitable for frequent and intensive use.

The inclination of the top is achieved thanks to two **86.5 cm** rear legs and two **64 cm independent front feet**, a configuration that improves adaptability on surfaces that are not perfectly flat and allows for a **clear and effective presentation of the products**.

Choose the **100x150 H757_42 market stall** with aluminium top: maximum display performance, professional structure, and guaranteed visibility. Contact us for quantity quotes.

FAQ:

1. **Is the stall suitable for outdoor display?**
Yes, thanks to the aluminium structure and the sheet top it is perfect for outdoor environments.
2. **What dimensions does the display top have?**
The top measures 100 x 150 cm.
3. **Is the stall slanted?**
Yes, thanks to the difference between the rear foot (86.5 cm) and the front foot (64 cm).
4. **Are the front feet adjustable?**
Not adjustable, but independent, ideal for irregular surfaces.

5. Is it easy to clean?

Yes, the aluminium sheet allows for quick and hygienic cleaning.

Mini buying guide:

If you are looking for a solid, stable stall suitable for the **professional display of fruit and vegetables or plants**, the H757_42 model is a reliable choice.

The **aluminium top** guarantees hygiene and resistance, while the **35x20 mm profile structure** ensures a robust yet lightweight base.

The **fixed inclination** improves the visibility of displayed products, and the **independent front feet** make the stall more stable even on imperfect surfaces.

A compact, versatile solution suitable for intensive use in markets.
